Welcome

We would like to welcome you all to this year's FRACP Part 1 Intensive Two Week Course in Paediatrics organised by the Department of Paediatrics: Child and Youth Health, The University of Auckland with Starship Children's Hospital, Auckland, New Zealand.

The course is a two-week intense review of topics tailored for the Part 1 Fellowship of the Royal Australasian College of Physicians in Paediatrics written examination which takes place in February 2022.

Our aim is to provide topical and relevant sessions of high quality by specialist clinicians. We, therefore, have invited speakers from Starship and other NZ hospitals to lecture on subjects that they consider to be important to paediatrics at the trainee level or knowledge leading on to more complex matters later on in their training.

The course is updated every year and involves a mixture of topic review and mock questions within each session. Honest opinions concerning the strengths and weaknesses of the programme allow us to improve future courses and we hope you will record these on the questionnaires provided during the course.

We are grateful for everyone's efforts in producing the programme and for you all attending it, either in person or online, despite the ongoing global pandemic situation – your role in conducting the course is an essential one.

We hope that you will find the course an invaluable component of your exam preparation and wish you well in your upcoming exam.

Assoc Prof Cass Byrnes

Dr Susie Cunningham

Dr Nick Selvathesan

Course Convenors

Date and Venue

**21 November to
3 December 2021**

**The University of Auckland
Faculty of Medical and Health
Sciences
